Designing your Information Governance Program

October 6, 2011 - 10:00 to 16:00

Novartis Headquarters, St. Johann Campus, Basel

CGOC
4400 North First Street
San Jose, CA 95134

Designed for corporate practitioners from legal, records, and IT, this one-day workshop will include shared practices from corporate leaders on how to garner executive sponsorship and measure benefits when designing your information governance program. Afternoon break out sessions will offer facilitated discussions defining the risk and cost reduction benefits to drive executive support and change management. The moderator will incorporate business case tools, observations from the discussion groups, and practitioner experience.

HOSTED BY:

CGOC (Compliance, Governance and Oversight Council) is a forum of over 900 corporate legal, IT, records and information management professionals. CGOC conducts primary research, has dedicated working groups on challenging topics, and hosts meetings throughout the U.S. and Europe where practice leaders convene to discuss discovery, retention, privacy and governance. Established in 2004, it fills the critical practitioners' gap between EDRM and The Sedona Conference.
